

Petition calling on the government of Canada to implement universal pharmacare

We the undersigned, residents of Canada, draw the attention of the House to the following:

- **THAT** one in five people are unable to fill their prescriptions due to financial reasons,
- **THAT** people should not have to struggle to pay for the prescription drugs they need,
- **THAT** Canada is the only country in the world with a universal medicare system that does not include prescription drugs,
- **THAT** estimated savings from universal drug coverage for Canadians are in the billions of dollars and experts agree that universal pharmacare is a wise investment.

THEREFORE, we call on the government to lower prescription drug costs for all Canadians and work with the provinces to implement a universal pharmacare program as part of our public healthcare system.
